Foreword

Many memories of our school years lie locked within our hearts only awaiting a key that can turn them into vivid focus. These memories portray our life at W.T.H.S., our laughter and our tears, the victories and the losses, the work and the play at this, our second home. We, the Senior Class of 1962, hope this year-book will open the lock and leave these memories etched upon our minds for many years to come.

"Hurrah for our flag and our school."

Dedication

We of the Senior Class gratefully dedicate this yearbook of 1962 to Mrs. Wilda Prevost for her years of service to us. Her friendly smile and her devotion to education have been guiding beacons to all of those students with whom she has come in contact. Her willingness to help in the times when she was most needed serves to be an example of her dedicated life. We know that Mrs. Prevost will continue to aid the students of this school as she unselfishly gives her time toward the betterment of youth.

ADMINISTRATION

It is most gratifying to know that so many of you will be receiving your high school diploma at the close of this year.

I rejoice with you in your accomplishment and wish for you the very best in the years to come. You have reached a milestone in your life's career. May this not be the end of your efforts to prepare yourselves for the life that is before you.

May each of you not forget the efforts of those who have made it possible for you to reach this milestone and of those with whom you have worked and played over the years, and above all do not forget the Holy One who has kept a watchful eye over you during these years. "Spend much time in secret with Him alone" that your lives may be more useful to yourself and those about you.

Lawrence B. Leatherwood
Superintendent of Schools

Seniors:

First, I should like to thank you for the contribution that you have made individually and collectively through the various departments of the school. Without the constructive leadership of members of the senior class, the school could not progress.

We are living in a time when we are constantly reminded by all mediums of communications of the "rights of the individual". Very little is ever said about the "responsibility" or "duty" of the individual. Our homes, our churches, our schools, and the very strength of our nation is being seriously threatened by the selfishness generated by the emphasis on "rights" and little consideration of "duty".

We shall follow your careers with interest, and we sincerely hope that you will be successful in your chosen work. However, unless you recognize the value of the home, the church and the school in our society and give these institutions your loyalty and support, your material success will contribute very little to your day and age.

M. H. Bowles
Superintendent of Waynesville
District

As we reminisce through the pages of the Year Book of 1962, may the visual recording of each individual be reflected in the highest type of character and honor that will contribute to our community future, and as we strive to commute with the Moon and Sun; may we pause at the Star of Light.
